### DETAILED ACTION

This action is a response to applicant's request for reconsideration filed June 30, 2003.

The rejection made in the previous Office Action under 35 USC 112 has been withdrawn.

#### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 5-11, 13-16 and 18-23 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Sohn et al (US Patent 5,88,171). The Sohn et al patent discloses each of the elements recited in the above claims.

Applicant's claim for priority is recognized, however, the 5,972,000 patent filed October 1996, has the earliest date with the claimed invention. Therefore, Sohn et al filed June 1997 is considered prior art to the claims.

Art Unit: 3731

*Allowable Subject Matter*

Claims 12, 17 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
